**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, "EPA Reg. No. 5813-132."

Signature of Approving Official:

3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 09/02/2021
- Alternate CSF 1 - 8 dated 09/02/2021

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
[Always refer to manufacturer's care instructions before using on equipment -or- devices.]

### **Disinfection**

**To [Clean][,] [and] Disinfect [and Deodorize] [and Remove Allergens on] Hard, Nonporous Surfaces:** [Set trigger to SPRAY.] Spray 6-8 in[ches] from surface [with trigger sprayer] until [surface is] thoroughly wet. Surface must remain visibly wet for contact time listed [below] -or- on label -or- 2 min[utes]. [Then wipe.] For visibly soiled areas, a precleaning is required. No rinsing is required. [If streaking is observed, wipe with a clean, damp [microfiber] cloth -or- paper towel].

### ***The following statement only to be used on institutional labels with medical use sites and medical devices:***

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

### **Special Instructions for Use Against HIV-1, HBV, and HCV**

This product kills HIV-1, HBV and HCV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in health care settings [(hospitals, nursing homes)] or other settings in which there is an expected likelihood of soiling of hard, nonporous surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B [(Virus)] (HBV) and Human Hepatitis C [(Virus)] (HCV).

### **Special instructions for using this product to clean and decontaminate against HIV-1, HBV and HCV on hard, nonporous surfaces/objects soiled with blood/body fluids: Personal Protection:**

When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. **Contact Time:** Allow surface to remain visibly wet for HBV, HCV and HIV-1 [for] 2 min[utes]. The contact times for other bacteria, viruses, and fungi may differ. See product label for contact times. **Disposal of Infectious Materials:** Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

### ***Mandatory label language when product is supplied in large containers (1 gallon or greater) to be used with refillable pump spray bottles less than 1 gallon.***

Fill or refill the **X** [fl] oz of **this product** spray bottle with **this product**. Pour product into spray bottle over sink or tub basin.

**To Preclean Instruments Prior to Terminal Sterilization/High Level Disinfection:** As a precleaning spray - Place instruments into a suitable container. Spray [**this product**] onto instruments to thoroughly wet all hard, nonporous surfaces. Let stand [for] up to 10 min[utes]. Rinse instruments. A manual instrument cleaner - Thoroughly pre-rinse dirty instruments under running water to remove visible, gross debris. Immerse prerinsed instruments into an appropriate size container filled with **this product**. Scrub instruments using a stiff bristle brush until visibly clean. Submerge instruments while scrubbing. Rinse instruments thoroughly. Change solution daily. Follow with an appropriate disinfection process. Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

**To Disinfect Hard, Nonporous Surfaces of Non-Critical, Precleaned Instruments:** Instruments must be thoroughly precleaned to remove excess organic debris, rinsed, and rough dried. [Clean and rinse lumens of hollow instruments. Spray visible surfaces of lumens with this product. Only clearly visible surfaces of instruments can be pre-cleaned with this product.] Spray all surfaces of instruments [with **this product**] until thoroughly wet. Surface must remain visibly wet for two min[utes]. Wipe with a clean, damp cloth or paper towel and allow to air dry.

**To disinfect hard, nonporous surfaces in food processing premises:** floors, walls and storage areas, [hold container six to eight in[ches] from the surface to be treated and] spray area until it is covered with the solution. Surface must remain visibly wet for contact time listed below -or- on label -or- two min[utes]. [[Wipe off with a clean cloth, mop or sponge and] thoroughly rinse all surfaces in the area with potable water.] Visibly soiled areas must be precleaned before using this product. Food products and packaging materials must be removed or carefully protected prior to using this product.

### **Animal housing facilities [and poultry and swine premises]**

**Disinfection of animal quarters and kennels:** For disinfection of precleaned hard, nonporous surfaces of animal quarters and kennels, apply this product -or- **product name**. Remove all animals and feed from premises. Remove all litter and droppings from floors, walls and surfaces of

facilities occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Hold container six to eight -or- 6-8 in[ches] -or- 6-8" from surface[s] to be treated and spray with the disinfecting solution and allow surface[s] to remain visibly wet for contact time listed below -or- on label -or- two min[utes]. Ventilate building and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

### ***Veterinary Usage***

**To Clean and Disinfect in a Veterinary Application:** Use to clean and disinfect hard, nonporous surfaces such as feeding and watering equipment, cages, utensils, instruments, kennels, stables, catteries, etc. Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all litter, droppings, and manure from walls, floors, and surfaces of facilities occupied or traversed by animals. Empty all feeding and watering equipment. Preclean all surfaces with soap or detergent and rinse with water. Hold container six to eight -or- 6-8 in[ches] -or- 6-8" from surface[s] to be treated and spray **this product**. Surface must remain visibly wet for two min[utes]. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treated surfaces have dried. Thoroughly scrub all treating, feeding, and watering appliances with soap or detergent, and rinse with potable water before re-use.
